WVU SELF-GUIDED TOUR
READY TO EXPLORE?

West Virginia University is where the best forge their futures. You will see that for yourself on your tour of WVU and Morgantown. So take your time. Look around. Ask people on campus what their experience has been like — don’t worry, Mountaineers are famous for being friendly.

The tour usually takes about two hours to complete. Please make sure that your parking pass is visible in your car at all times.

Red or green lines on the maps show your route, which will take you through three areas:

- **Downtown**, where most students take classes during their first two years.
- **Evansdale**, which includes sports complexes, residence halls and several schools/colleges including the Health and Education Building, which houses student health and wellness services. It’s also where the new Evansdale Crossing is located. Inside, you’ll find the Mountaineer Hub, where students get help with financial aid and scholarships and talk with the Registrar’s office.
- **Health Sciences**, the home of healthcare programs, WVU Medicine and WVU Ruby Memorial Hospital.
